

Please do not replace K-LOVE with an LPFM station. K-LOVE is a station that I can listen to with my whole family. There is not another station in our listening area that provides this kind of format and music. I am especially happy that my teenage-daughter and her friends all listen to this station. It provides the music and the message they need and want to hear. We, as parents, are bombarded everyday by TV and radio that we constantly have to guard our children against, such as the Super Bowl fiasco, and all the sexual commercials we are subjected to on a daily basis. This is the one media outlet that I can listen to without my hand on the button to switch it off!! Please don't make it more difficult for KLOVE to operate!! Thank you.
